The drawing area displays 3D surfaces, solids, and other 2D or 3D objects. DraftSight:

Used to annotate drawings, this also includes the ability to create freehand drawings. Inventor: This is used to design mechanical and electrical systems. Revit: Designed for architecture and building. It uses the Building Information Modeling (BIM) standard. Experience Design Suite: Used to create computer-aided animations. The software is available on a wide variety of platforms. The suite is primarily used on Windows, Linux, Mac OS X, iOS, Android, and Chrome OS devices. The free versions of the apps allow the use of AutoCAD for CAD and DraftSight for annotating drawings and freehand drawing.
