The Los Angeles police are reporting 10 instances of when people allegedly turned into vampires, with four serious cases, and two deaths. The LAPD said several of the cases reported Friday were not vampires, but instead drug addicts, and resulted in injuries that were alcohol-related. [LAPD report] In one case on Friday, a man reported that he became a vampire after being pushed into a concrete wall by a roommate. He sustained injuries. Two other cases, one of which resulted in death, were reported in east Los Angeles on Thursday. The other homicide case in the area was reported Friday, with a 27-year-old man found with puncture wounds on his head after going out with friends and reportedly turning into a vampire. According to the victim, his friends tried to castrate him with a pair of scissors. The four serious cases included a man who was found unresponsive in Pasadena with a puncture wound to the head, a woman seen suffering from hypothermia outside a shopping mall in Santa Monica, a person who was found collapsed in an apartment in Pacific Palisades, and a man whose body was discovered at the bottom of a cliff in Malibu. The complete list of cases, as reported by the LAPD over the last week, can be found here. [LA Times, KNBC]Q: Jquery checkbox with radio button I have created a checkbox with radio button. Jane Whittaker and Dovetail Games's 2017 answer to Air Cargo Sim X: Steam Edition. A very realistic add-on for FSX: Steam Edition. Recommended for new and experienced aviators.Playable in both Sidewinder X-51A (FSX and Steam), DCS: F/A-18C: AJS-37 Viggen and the X-Plane. Description:Jane Whittaker and Dovetail Games for FSX: Steam Edition is a very fun and I think pretty realistic add-on for that platform. It can be played in both Sidewinder X-51A (FSX and Steam), DCS: F/A-18C: AJS-37 Viggen and the X-Plane. If you're a fan of airports, industries or air traffic control (ATC) these are going to be your favourites! The add-on has 25 levels. Each has a 2 missions (2 rounds). Mission 1: Taxi-out - Find the runway and taxi-out. - Drop your cargo and find your location - The cargo has a 4 minute timer so don't touch it too much - Pick your cargo up from the cargo pick-up and keep it close. Cargo will be lost if it's in the open while you're out or taxiing out - Pick-up will cost you 5,000m/s for cargo in the air and 10,000m/s for cargo on the ground. Cargo will be lost if it's in the open while you're picking-up or in flight. - If you don't complete your taxi-out before the timer expires you will not receive credit and your cargo will be lost Mission 2: Airdrop - Find your cargo and drop it - The cargo will be automatically dropped with the barrel to the left or right. Barrel will damage for every 5 seconds you drop the cargo too far from its initial drop point - The cargo will be automatically dropped with the barrel to the left or right. Barrel will damage for every 5 seconds you drop the cargo too far from its initial drop point - You may toggle the cargo out of the barrel (between pilot controlled and cargo controlled). Pilot controlled drops allow you to drop the cargo where you want and it will be picked up by the cargo - If you toggle the cargo to pilot controlled it will NOT be picked

What's new:

   {a combat and vegetarian Greek tragedy about human beastly instincts, passions, and perversion, a Leo Buscaglia novel, plus excerpts from it's companion book The Heart of a War Women laugh. Men cry. And a poor theater of war families never fully know what's going on within each other's homes. Centauro was Leo Buscaglia's (author of The Heart of a War) second novel published in 1975 and his second post-slavery novel, based on the experiences of his and his family's trip to Greece and their struggles in rural Greece following the civil war. Today we're going to focus on the Center of the story. It revolves around a Teatro of war child, Jenepherus, possibly named after a daughter of one of Leo's acquaintances who ran a similar theater of war in Marseilles, France. Decanters, Or Hope that is a Centauro Centauro, Jenepherus and a Surviving Victim Word bubbles: When the marchers invaded Greece, following their counterrevolutionary defeat in France, they were welcomed as liberators. Some able-bodied men took the places of women, children, and the old in the marchers' daily affairs. All accounts say that when the marchers' military barges arrived at the port in Athens, the first thing they saw was the sexual perversion that had begun to be ushered into the culture as Greece had begun to flourish following their "spring cleaning." When soldiers were paired with youths, door wavers called chasseurs were placed at the outer gates. Units whose mission was to find and follow a "perversion" and report it to their superiors had been set up, but they didn't know how to find the perverts. The marchers decided to end the unsettling thoughts that were bedeviling the marchers and their soldiers by acting on their instincts and perverted passions. Anybody caught found, tortured, and chopped to death in a suitable place then hauled over and dumped on a side street was sent for execution. All soldiers were told that some had been killed by their "lovers." Thus were the military units that carried the founding fathers of

the nation. Back in Greece, when the marchers arrived, Philatinos' servants told

Friends Are Forever is a web browser-based (flash) platformer inspired by the Mario & Luigi games, more specifically, Super Mario Galaxy, that features a non-linear, open world with many secrets to discover, and a variety of different, challenging challenges to meet. This game can be completed in one sitting. The object of the game is to do as much damage and kill as many enemies as you can, all while navigating your way through the planet, and defeating as many bosses as you can along the way. Along the way, expect to find a variety of side-quests and resources to help you on your journey. This game was written by me, jwaldman. The art assets were created by a handful of artists from around the world; I'd like to name them below but the entire credits list is so long I can't do it here. I am very grateful for the art I received, but since I didn't create it, these credits end at me. Introduction: "I love this game. I love playing it, and I love playing it again. It's got great graphics, good sound, challenging gameplay, and lots of secrets to find. " - Game-Tailor "This game is one of the best online flash games I've ever played... with awesome music and lots of secrets to find, even if you're just playing the first few levels. I love this game. " - GamesGames "This game is a work of art in every way imaginable. The art style is creative, the music is delightful, the game is both challenging and charming and the plot is superbly interwoven with the background. I've never enjoyed a game so much, and I've been playing them for a while... I don't want to stop! " - GAF Forums "This is an excellent game, with every little thing you could wish for. Even the more unreasonably challenging levels are fun because they're beautifully designed. I love the music too, it sets the tone for each level perfectly and it's just terrifically funny and clever. " - Polygon.com "This game is one of the most fun games I've played in a long time. I wouldn't be surprised if you took a couple hours to complete it. There's a reason it's the top new games on the day it was released. " - Forbes "
