Video Cleaner is a free application designed to help you clean up your video files and remove unwanted files and junk. Video Cleaner uses the very latest video file formats to remove unwanted files and junk, such as those used by video editing programs. Video Cleaner was developed with ease of use in mind, and takes only a few seconds to complete its scans. You can rest assured that Video Cleaner will only remove files that are truly unwanted. Video Cleaner is a free application designed to help you clean up your video files and remove unwanted files and junk. Video Cleaner uses the very latest video file formats to remove unwanted files and junk, such as those used by video editing programs. Video Cleaner was developed with ease of use in mind, and takes only a few seconds to complete its scans. You can rest assured that Video Cleaner will only remove files that are truly unwanted. Video Cleaner has three easy scanning options that it uses to clean up your video files: an initial scan, which scans for and removes all files that are not likely to be needed for the rest of the cleanup process; a second scan, which scans for and removes all files that are likely to be needed for the cleanup process; and a third scan, which does not remove any files. Video Cleaner can be useful in cleaning up videos, audio, images, games and software. Use the powerful junk remover to locate and erase everything from your computer that you can't remove with other applications. Use the powerful junk remover to locate and erase everything from your computer that you can't remove with other applications. Easily access your Microsoft account, calendar, contacts and many other services. Dictation Description: Spe

Q: How to correctly configure the id property in Ext.js 4.1? I am trying to create a grid with a field which is an unique id. I have the following code: items: [{ xtype: 'grid', columns: [{text: 'Date', dataIndex: 'date', dataType: 'date'}, {text: 'Hours', dataIndex: 'hours', flex: 2edc1e01e8

PC Cleaner Registration Code

Big Clipboard lets you download, store and share up to 1000 clipboard contents (cut/copy/paste) in any size for free! It allows you to convert any kinds of file formats into clipboard, including HTML, RTF, Open Document Format (ODF), Word document, PDF, Microsoft PowerPoint, Microsoft Excel, Lotus Notes, HTML/Text, TXT/HTML, plain text, MS Office Word, MS Excel, Text, Image and so on. Besides, you can also directly select your computer screen's contents to be copied to clipboard and then paste to other application. Description: The Activity Monitor is a tab of the System Information application. The Activity Monitor was added to the System Information application in Mac OS X 10.5. The Activity Monitor shows all running processes on the computer. Each process has the title, a list of the application names that the process was launched from, information about the process' threads, total memory and other statistics. In addition, the Activity Monitor allows you to see the programs' full path, even those in which your application resides. Description: Paste File & Folders is a powerful utility that allows you to easily copy and paste any size of file or folder from one folder to the other, one folder to another folder, one folder to your clipboard, any other place on your computer, and even onto a network shared location. You can also search for a file or folder name on the computer, copy it and then paste it where ever you like on your computer or on a network shared location. If you want to paste multiple file contents in just one click, then you can also use the "Paste Files & Folders" which can combine multiple files and folders to one paste. Description: The File Inspector allows you to easily inspect the file's information, including title, last modified date, extensions, path, file size, details, and so on. With this application, you can perform various file operations, including create a new folder, create a new file, move or copy the files, rename or delete a file, change the file's extension, change a file's properties, etc. The File Inspector also provides many built-in folder management tools, including create, move, delete, rename, hide, unhide, and all sub-folders are displayed to the right of the folder, the folder's total size and occupied space, and so on. Memory Description: Memory is a free memory monitor tool

What's New in the PC Cleaner?

PC Cleaner is a tool that can help you free up space on your computer by removing unnecessary files. It can be easily used by novices. The interface of the application is plain and simple to work with. So, PC Cleaner can clean and optimize the system (e.g. temporary, error backup and description files), after you set filters for scanning. In the list you can check out the name, source path, reason for deletion and size of each file. Once the analysis is completed, you can select which files you want to delete and let PC Cleaner take care of the rest. Furthermore, you can locate and delete duplicate files, remove Windows history, web-related items, Explorer and start menu objects, as well as files and folders traces, set the removal option (e.g. to Recycle Bin), restore settings to their default values, and more. The software requires a very low amount of system resources, has a good response time, quickly finishes a task and didn't cause us any difficulties during our tests. There's also a well-drawn help file that you can check out (too bad it doesn't have snapshots). All in all, PC Cleaner is a very good tool for deleting junk data and we strongly recommend it to all users. * Get new features updates and updates for your programs for FREE! * No downloads necessary, just go to and signup for FREE! * Help us keep the site running by donating at * To report technical issues with the software, please use our contact form at * OR send email to svc@reimageplus.com Scrgkr5 Scrgkr5 - Auto Gain Control Gain / Track Audio to any Audio Track (mp3, ogg, etc) and apply your own custom Gain based on any input levels (eg. -6dB, +6dB, 0dB) or Pan (eg. -150db, +150db, 0db) and record that output in a new track, use it in all your recordings. Gain your tracks all at once or by track, apply panning or levels to tracks or a mix or just as a simple monitoring tool RMS Noise Remover and Reduce the level of ambient noise and undesirable sounds using a neural network algorithm that actually analyses the sounds in real time.
